

兔抗 MAK(Ab-159)多克隆抗体

- 中文名称: 兔抗 MAK(Ab-159) 多克隆抗体
- 英文名称: Anti-MAK(Ab-159) rabbit polyclonal antibody
- 别名: RP62; dJ417M14.2
- 相关类别: 一抗
- 储存: 冷冻 (-20℃) 避光
- 宿主: Rabbit
- 抗原: MAK(Ab-159)
- 反应种属: Human
- 标记物: Unconjugate
- 克隆类型: Unconjugate

技术规格

Background:	The product of this gene is a serine/threonine protein kinase related to kinases involved in cell cycle regulation. It is expressed almost exclusively in the testis, primarily in germ cells. Studies of the mouse and rat homologs have localized the kinase to the chromosomes during meiosis in spermatogenesis, specifically to the synaptonemal complex that exists while homologous chromosomes are paired. There is, however, a study of the mouse homolog that has identified high levels of expression in developing sensory epithelia so its function may be more generalized.
Applications:	WB
Name of antibody:	MAK(Ab-159)
Immunogen:	Synthesized peptide derived from Internal of human MAK

	.
Full name:	male germ cell-associated kinase
Synonyms :	RP62; dJ417M14.2
SwissProt:	P20794
WB Predicted band size:	71 kDa
WB Positive control:	K562 cells lysate
WB Recommended dilution:	500-3000
