

## 兔抗 SPATA6 多克隆抗体

中文名称：兔抗 SPATA6 多克隆抗体

英文名称：Anti-SPATA6 rabbit polyclonal antibody

别名：HASH; SRF1; SRF-1

抗原：SPATA6

储存：冷冻（-20℃）

宿主：Rabbit

相关类别：一抗

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

|                                    |                                                                                                                                                                                                                                                                      |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background:</b>                 | The Spata6 gene consists of 15 exons ranging in size between 40 and 596 bp. It may play a role in spermatid maturation or sperm function. The Spata6 gene was localized to chromosome 5, region q34-q35 in the rat and to chromosome 1, region p32-p35 in the human. |
| <b>Applications:</b>               | ELISA, IHC                                                                                                                                                                                                                                                           |
| <b>Name of antibody:</b>           | SPATA6                                                                                                                                                                                                                                                               |
| <b>Immunogen:</b>                  | Fusion protein of human SPATA6                                                                                                                                                                                                                                       |
| <b>Full name:</b>                  | spermatogenesis associated 6                                                                                                                                                                                                                                         |
